SUMMARY

Lead Product Designer with 10+ years of experience designing e-commerce, mobile, and SaaS products that drive measurable business results. Founding designer at multiple companies, with deep experience building and scaling design systems from 0 to 1, leading UX across eight international sites, and turning ambiguous problems into shipped products. Uses AI tools such as Claude and Cursor to prototype in code against real data, while owning the design judgment and quality bar. Recent work contributed to 100% YoY revenue growth and a record $28M pre-order.

EXPERIENCE

Senior Product Designer, Fanatics (Topps)
Dec 2022 - Oct 2026 - New York, NY (Remote)

- Founding designer who led the Topps.com rebrand and built the company's first scalable design system, adopted across topps.com and 7 international sites in the US, Latin America, Europe, and Asia.
- Led the sitewide redesign, reducing bounce rate by 41% and increasing units per order from 1.97 to 2.3.
- Conceived, pitched, wrote the PRD for, and directed the Topps release calendar; reached 10,500 peak daily unique users, sustained 4,000–8,000 daily, and generated 38,700+ Notify Me sign-ups in two weeks.
- Led design for high-stakes launches, loyalty systems, and new purchasing formats such as Dutch auctions, contributing to 100% YoY revenue growth and a record $28M pre-order with the largest sign-up list in company history.
- Built an AI-assisted collector checklist prototype with Claude and Cursor, connecting manufacturer card data back to 1960, and reviewed data edge cases before the work moved forward.
- Aligned 5+ cross-functional teams on experience systems that drive both acquisition and retention.
