SR PRODUCT DESIGNER
Fanatics

Dec 2022 - Oct 2026

Founding Designer with a track record of turning UX strategy into measurable business outcomes, leading design for high-stakes launches, loyalty systems, and new commercial mechanics. Launched the company's first scalable design system, driving collaboration across all departments, and led a comprehensive sitewide redesign and rebrand. Work that contributed to 100% YoY revenue growth and a record-breaking pre-order that generated $28M in sales and the largest sign-up list in company history. I specialize in designing for complexity: new purchasing formats like Dutch Auctions, cross-functional alignment across 5+ teams, and experience systems that drive both acquisition and retention. My work is grounded in craft, validated by data, and built to move fast without breaking trust.
